Constantza's Fall Proves Damper
(By Associated Press.)
PARIS, Oct. 24.—The capture of Constantza by the Teutonic forces, although not unexpected, nevertheless puts a damper on the enthusiasm aroused by the continuous progress of the entente allies on the Picardy front. French commentators do not exaggerate the importance of the achievement of Von Mackensen, whose action is considered here as a defensive one to shorten the front and hold it better with fewer men.

LONDON, Oct. 24.—Lloyds announces that the Norwegian steamer U-11, 1138 tons, and the Danish steamer Helga, 1182 tons, have been sunk. Their crews were saved.

BAZAR GIVEN FOR THE BENEFIT OF CHURCH

LIBERAL PATRONAGE FOR AN EVENT THAT IS FOR A MOST WORTHY CAUSE

A bazar is being given in the Airdome by the congregation of St. Patrick's Catholic church in order to provide a nucleus for a fund with which to build a new church, the old structure, which was constructed in the early days of the camp, having almost outlived its usefulness.

The fair and bazar are being held afternoons and evenings in the Airdome and are largely attended and liberally patronized, particularly the booths, where all manner of neat fancy work is displayed. The fish pond is another attraction, but the dancing, to music by an excellent orchestra, is the chief drawing card. This afternoon a card party was given and refreshments were served. All are invited to attend this evening, when there will be a special program.

LECTURE ON EARTHQUAKES

It is just a year since Nevada was visited by one of the heaviest earthquakes in its recent history, one that caused a movement of at least 20 feet in the Kennedy district in Humboldt county. Prof. J. C. Jones, the meteorologist at the University of Nevada, will shortly come to Tonopah and deliver a lecture on seismic action and will have stereopticon views which he took at the center of the disturbance. Prof. Bennett has secured the professor's services for the benefit of the Tonopah school of mines, but the lecture, the first of a series, will be open to the public.

Five of the steamers were Norwegian, two Greek, two Danish, and one Dutch. They aggregated 12,474 tons gross. The sailing craft were a Danish schooner and a Swedish bark.
